

Sequences 59, 10 cpus, 30 random trees

Weights repartitions on the first tree

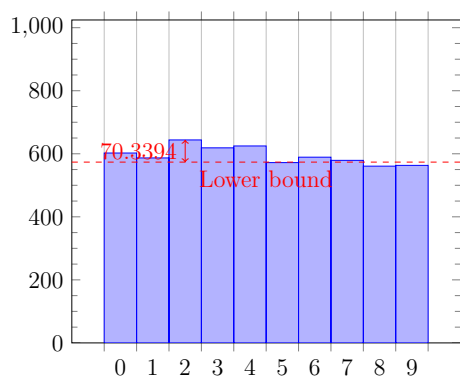

Weights repartitions on the last

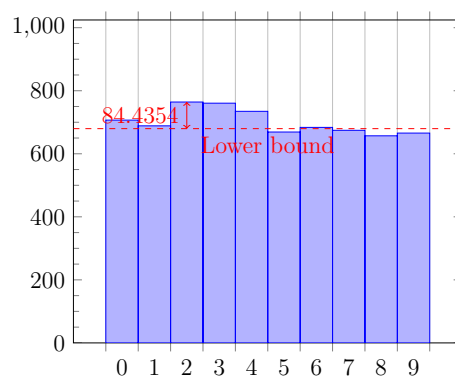

Per tree, maximum weights with kassian and our algorithm, and lower band

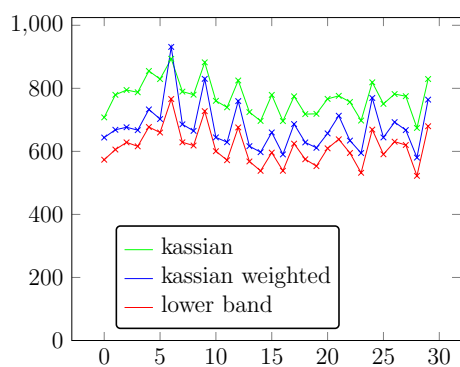

Sequences 128, 10 cpus, 30 random trees

Weights repartitions on the first tree

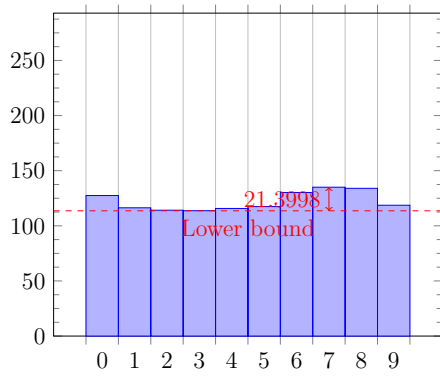

Weights repartitions on the last

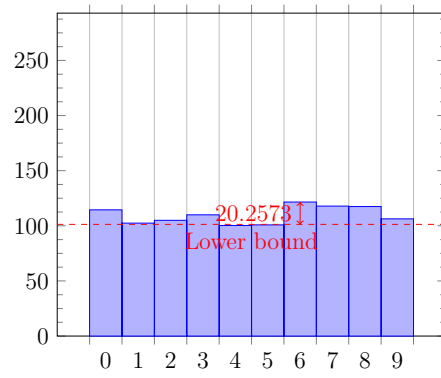

Per tree, maximum weights with kassian and our algorithm, and lower band

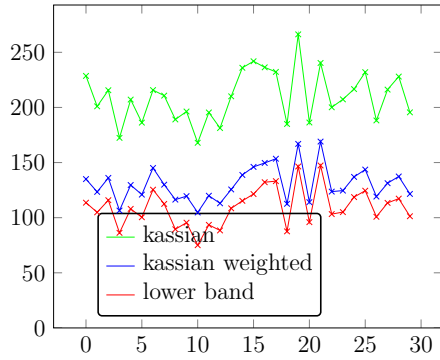

Sequences 404, 10 cpus, 30 random trees

Weights repartitions on the first tree

Weights repartitions on the last

Per tree, maximum weights with kassian and our algorithm, and lower band
